

Climate change.  
500,000 people  
asked.  
The Government  
listened.  
We're not there yet.  
But we're about to  
turn the tide.  
Make sure  
your voice is  
heard.

We're about to turn the tide on climate change.  
Be there to make it happen.

## PUBLIC MEETING, CENTRAL LONDON

**When** 7:30pm 22 April

**Where** Friends House, 173 Euston Road London NW1 2BJ

## SPEAKERS

**Hilary Benn** Secretary of State for Environment, Food and Rural Affairs

**Peter Ainsworth** Conservative Shadow Environment,  
Food and Rural Affairs Secretary

**Steve Webb** Liberal Democrat Shadow Secretary of State for Environment,  
Energy, Food and Rural Affairs

**Tony Juniper** Director of Friends of the Earth and representative of the  
Stop Climate Chaos Coalition

Since Friends of the Earth launched The Big Ask in May 2005, supported by Stop Climate Chaos, over half a million people have contacted their MP demanding a tough law to tackle climate change.

The Government listened.

In March 2007 it introduced a draft Climate Change Bill, which will set legally binding targets to reduce carbon dioxide emissions. This Bill is now in its final stages in Parliament and is set to become law by the summer. It could be a world beater.

But the Bill is not yet tough enough. This meeting is your last chance to tell the Minister in charge of the Bill and opposition speakers on the environment in person that they must deliver a strong law.

Tell them

- The 2050 emissions reduction target must be at least 80 per cent (currently it's been set at 60 per cent)
- Emissions from international aviation and shipping must be included in the targets

**Don't let the Government off the hook. You can influence its position simply by showing up. Put 22 April in your diary. Be there. Make sure your voice is heard.**
