

Who are Hillingdon Friends of the Earth?

We are a group of local residents working to promote a healthy and sustainable

environment. Many people in Hillingdon want to protect their own neighbourhood, but getting things done on your own can be difficult. We meet regularly to share concerns, publicise environmental issues and lobby the council and Government.

Getting together can empower individuals.

Here's the sort of things we do

- **Keep ourselves informed** on current issues and their local impact
- **Publicise key issues** In 2005 we obtained support from the public **for** legislation on CO₂ emissions and **against** the expansion of Heathrow.
- **Raise funds for campaigning**
- **Decide as a group** what issues to tackle. We'd like to do more! - but over the past months we have:
helped campaign against a third runway at Heathrow

lobbied Government to legislate for cuts in CO₂ emissions
challenged Government to abandon open-field trials on GM crops
hosted talks on topics such as sustainable energy and wind turbines
visited local projects including the composting plant at Harefield and Renewable Energy Systems at Watford

Joining a Friends of the Earth local group will unite you with like-minded people and provide you with the resources, advice and support you need to get active on environmental issues.

WANT TO FIND OUT MORE? Why not come to one of our monthly meetings?
When? 7.45pm - 10.00pm on the third Tuesday of every month.

Where: Christ Church, Redford Way, off Belmont Road, Uxbridge UB8 1SZ

NB. If attending for first time, kindly check venue by telephone or email
