

PRE-EXAM ASSESSMENT, BARCELONA

for week ending:

November 7th, 2009

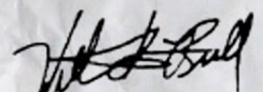

PUPIL	REMARKS	RESULT
AFRICAN GROUP	The class hero, takes courageous initiatives to improve all his classmates. Stands up to class bullies and is top of the class for maths. Good focus and insists on focusing class discussions of emission reductions for Annex 1 country students.	PASS
BOLIVIA	Expressed solidarity with classmates from Africa. Scores top marks on climate debt.	PASS
KENYA	Challenged bad students regarding their economic and political excuses for unambitious targets, and reminded classmates that climate change is a matter of life and death right now.	PASS
G77+CHINA	Good organiser, scores strongly on team work and supports its classmates in ensuring that they can stand up to Annex 1 bullies.	PASS
ANNEX 1	Disruptive gang of students who bully others. Always take more than their fair share and never pay for anything. Scored zero in their historical responsibility class.	FAIL
CANADA	Sits at the back refusing to engage with rest of the class. Scores badly on the science and maths. Not on target.	FAIL
EU	Wants to be seen as the good guy, but is two faced and hides behind the class bully. Needs extra maths lessons to add up to 2 degrees	FAIL
DENMARK	Wants to be class President but instead of being motivational leader downplays the class expectations regarding outcomes in Copenhagen.	FAIL
USA	No good at team work, sulks in corner. Won't answer questions. Won't do his homework on multilateral cooperation. Work is always late, full of holes and voluntary.	FAIL

GENERAL COMMENTS :

Failed students have to work harder and learn their lessons on historical responsibility and climate debt in order to pass the final exam in Copenhagen.

1. Don't pay your classmates for doing your homework, don't use offsets, because that's cheating
2. Annex 1 stop trying to kill the Kyoto Targets
3. Improve your maths, put real money on the table and accept your historical responsibility
4. Show more ambition for passing the exam in December
